Getting Payments Right

Goal Leaders

**Carole Banks,** Deputy Chief Financial Officer, Department of the Treasury

**Jenni Main,** Director of the Office of Financial Management and Chief Financial Officer, Centers for Medicare and Medicaid Services

**Fred Nutt,** Senior Advisor, Office of Management and Budget

**Tim Soltis,** Deputy Controller, Office of Management and Budget
Goal Statement

Reduce the cash loss to the tax payers by issuing payments correctly the first time and, as appropriate, recovering funds that were paid incorrectly.

Challenge

While improper payments may compromise citizens’ trust in government, they are not always indicative of fraud, nor do they necessarily represent payments that should not have been made. The cash loss to taxpayers is not only the incorrect payment, but also includes costs associated with prevention and recovery.

Opportunity

To improve the efficiencies of government programs by focusing on getting government payments right the first time they are made and reducing the cost associated with an incorrect payment.
