Agency Priority Goal Action Plan

Improve Supplemental Security Income Payment Accuracy

Goal Leaders:

Goal Leader: Brad Flick, Assistant Deputy Commissioner, Office of Analytics, Review and Oversight

Deputy Goal Leader: Erik Jones, Assistant Deputy Commissioner, Office of Operations

Performance.gov

Fiscal Year 2019, Quarter 3
Overview

Goal Statement and Targets

Improve the integrity of the Supplemental Security Income (SSI) program by focusing our efforts on reducing overpayments.

- By September 30, 2018, achieve an SSI overpayment accuracy rate of 94 percent
- By September 30, 2019, achieve an SSI overpayment accuracy rate of 94 percent

Challenge

We rely on SSI recipients to timely report changes in income, resources, and living arrangements in order to accurately determine their eligibility for the program and payment amount. Without timely reports, we incur improper payments.

Opportunity

We strive to increase our payment accuracy by using more data and technology, which include:

- Providing an additional option for reporting earnings using authority from the Bipartisan Budget Act of 2015, Section 826, "Electronic Reporting of Earnings."
- Applying an automated process for receiving commercial records on real property ownership

Strategic Alignment

This APG supports our strategic goal "Ensure Stewardship" and strategic objective "Improve Program Integrity."
Implementation Strategies

• Conduct SSI redeterminations (a program integrity workload to ensure stewardship and efficient administration of the SSI program)

• Increase timely wage reporting to address a root cause of improper payments and prevent their recurrence

• Automate non-home real property to address a root cause of improper payments to prevent their recurrence

• Collaborate with partners to address improper payments
## Key Risk Mitigation

<table>
<thead>
<tr>
<th>Key Risk</th>
<th>Mitigation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reliance on SSI recipients to timely self-report changes that may affect eligibility or payment amount.</td>
<td>We continue to pursue data exchanges to secure data directly and reduce our dependence on SSI recipients to self-report.</td>
</tr>
<tr>
<td>The SSI program design makes eligibility requirements complex.</td>
<td>We continue to propose legislation that would simplify the SSI program and reduce self-reporting requirements.</td>
</tr>
<tr>
<td>Competition with other agency priorities for limited information technology (IT) resources.</td>
<td>We have a sound business process for making IT investment decisions.</td>
</tr>
<tr>
<td>As we advance our program integrity activities, we detect increases in overpayment errors</td>
<td>We acknowledge this risk as a consequence of expanding our program integrity activities and will continue to strive to reduce SSI overpayments.</td>
</tr>
</tbody>
</table>
Primary Indicator (Annual Target Only)
FY 2018 Target: 94 percent SSI Overpayment (O/P) Accuracy Rate
FY 2018 Results: Available summer 2019
FY 2019 Target: 94 percent SSI O/P Accuracy Rate
FY 2019 Results: Available summer 2020

Secondary Indicators Q3 Results¹ (Annual Targets Only)
SSI Redeterminations Completed
FY 2019 Target: 2,822,000
FYTD 2019 Results (through Q3): 2,217,124

SSI U/P Accuracy Rate
FY 2019 Target: 98.8 percent
FY 2019 Results: Available summer 2020

SSI Wage Reporting
FY 2019 Target: Increase FY 2018 wage report results by 4 percent (1,254,468)
FYTD 2019 Results (through Q3): 941,529

¹ FY 2019 Q3 results are through June 28, 2019, which is the end of the operating month.

</table>
**Overall APG Progress**

Our desired FY 2019 outcome is to achieve an SSI Overpayment accuracy rate of 94 percent. The results will be available in summer 2020.

We continue to implement strategies to increase payment accuracy using our program integrity tools (i.e. non-medical redeterminations); expanding options for SSI recipients, their representative payees, and deemors\(^2\) to increase timely reporting; developing a marketing strategy to the public to increase awareness of reporting responsibilities for wages and resources; exploring targeted enhancement of messaging in notices of reporting responsibilities for Old-Age, Survivors, and Disability Insurance beneficiaries and SSI recipients; enhancing death data processing; continuing Access to Financial Accounts (AFI) development; enhancing myWR to improve security standards and accuracy of pay stub information; and collaborating with partners to address improper payments through data exchanges.

During the third quarter, we:

- Began exchanging data with the Department of Homeland Security to obtain foreign travel data on SSI recipients who are non-U.S. citizens;
- Continued AFI development and explored new opportunities; and
- Completed additional systems enhancements that will streamline the posting of death data.

\(^2\) A deemor is a person (e.g., parent or spouse) whose income and resources we consider when determining a person's eligibility or payment amount for SSI.
**Historical Data**

**SSI Redeterminations and Limited Issues Completed**

FY 2016 Target: 2,522,000  
FY 2017 Target: 2,562,000  
FY 2018 Target: 2,900,000  
FY 2019 Target: 2,822,000  
FY 2016 Completed Cases: 2,530,446  
FY 2017 Completed Cases: 2,589,638  
FY 2018 Completed Cases: 2,913,443  
FY 2019 Completed Cases: 2,217,124

Note: SSI Redeterminations and Limited Issues are closely monitored to ensure we meet our end-of-year target. Each month fluctuates; however, we have consistently met our annual goals.
The annual SSI Stewardship review is our methodology for determining payment accuracy.

Each year, we report on the findings from our SSI Stewardship Review of the non-medical aspects of SSI payments. Stewardship review findings provide the basis for reports to monitoring authorities, as well as for the reporting requirements contained in the Improper Payments Information Act of 2002, as amended by the Improper Payments Elimination and Recovery Act of 2010, and the Improper Payments Elimination and Recovery Improvement Act of 2012 and published in our Agency Financial Report.

In addition, our agency’s Annual Performance Report includes an SSI payment accuracy performance measure as part of our strategic objective to "Improve Program Integrity." We also use Stewardship data to identify opportunities for improvement.
Internal Stakeholders:
The **Our Improper Payments Oversight Board** provides enterprise-wide governance and accountability. The Board’s role is to serve as the corporate team to: oversee all improper payment related activities for the agency; collaborate and shape strategy; resolve cross-component differences; address challenges encountered by staff; and drive timely results.

External Stakeholders:
**Congress:** Congress has a continued interest in our efforts to reduce improper payments.

**Claimant Advocacy and Disability Advocacy Organizations:** These organizations advocate for the rights of persons who apply for and receive SSI.

**The Public:** We balance our program integrity responsibilities with our commitment to serve the public and issue timely benefits.
